

Naunton Farm Flowers Wedding Brochure

" The whole process of choosing and ordering flowers with Kate was so simple and really enjoyable. Nothing was too much trouble and as you are ordering from the person who is growing the flowers too you get a completely bespoke service.

Kate really 'got' the look we wanted for our wedding too which just made everything easier, and we were over the moon with how the flowers turned out."

C & L

Our Weddings

We grow seasonal flowers that are natural, cottage garden style with lots of character. Our blooms have an amazing scent which is always a pleasure and helps to enhance your event.

We believe sustainability shouldn't compromise beauty, we don't use any floral foam, toxic chemical or unwanted plastic. We opt for natural materials with reusable mechanics.

Using our seasonal blooms we reflect the time of year in your blooms. From your ideas, colour scheme and aesthetic, we will put together an initial proposal for you.

We offer our bespoke service, as well as our bucket and bouquet option for smaller weddings.

BESPOKE WEDDINGS

For those couples wanting our seasonal flower arrangements grown by us here in Toddington. Designed and arranged bespoke for their church/ceremony as well as reception flowers.

We offer a bespoke service, personal to you. When you get in touch with us about your event, we can discuss your wants and needs such as quantities for bouquets and table décor or if you need extra help to plan, we can guide you from start to finish!

Once we have all the information we need, I can then provide an initial proposal for your event. We can discuss any queries with budget and discuss the whole creative process.

Our minimum spend for Bespoke Wedding flowers is £1200

Bucket & Bouquet Wedding Flowers

Couples wanting smaller weddings and those wanting to DIY their wedding with their wedding party. We offer buckets of flowers chosen in your colour scheme and style. These will be seasonal blooms available at the time of your wedding.

We can also offer to create your bridal party bouquets or buttonholes for you, with the DIY buckets for your ceremony and reception flowers, to save you the extra stress. Decide whether you'd like your flowers delivered to you/venue or prefer to collect when suits you. They can be made ready a few days in advance, leaving you plenty of time to be creative before the event. No minimum spend for DIY wedding flower service.

Bouquets & Bridal Party Flowers

Each bouquet is unique to the bride, capturing the aesthetic using our home-grown cottage garden style flowers.

Your colour scheme as well as any preferences of flowers, create your own beautiful bouquet unique to your wedding. We use wedding quality hand died silk ribbon made, and hand dyed in England. Our Bouquets are delivered in glass vases with care, ready to sit on your top table keeping it fresh.

Bridal party flowers are made especially to your preferences, ensuring a co-ordinated appearance throughout your wedding party. Using our home-grown flowers to add a whimsical finish to your designs along with beautiful scent from our garden roses or sweet peas!

We can create bouquets, simple flower crowns, buttonholes and corsages. We use high quality satin or grosgrain ribbon for our bouquets or buttonholes. Colours can be matched to your colour scheme where we can, or minimalist look with classic white/cream finishing touches.

Church/Ceremony Flowers

For Church or ceremony flowers we can offer entrance archways large or smaller, milk church arrangements for the doorway.

Aisle decor, such as meadow boxes, these can be re-purposed in the reception after the ceremony.

We can do simpler bunches of seasonal foliage tied with ribbon for aisle chairs. Large statement vases for the end of the aisle (at front of the church) on church pedestals. These are great to frame the couple in photos and easy to re-use at the reception.

The vessels we use for example vases or bud vases can be rented from us for a small charge.

Reception Flowers

For reception venue flowers whether it is a village hall, a barn or marquee in your garden! Customised table centrepieces that become the focal point of your reception, we can offer larger vases, a selection of bud vases or simple jam jars.

Centre pieces can enhance the overall ambiance of your event. From large centrepieces to an arrangement of bud vases in a range of styles. Bud vases are a great budget friendly option as these don't take a lot of stems unlike larger vases.

We always will look at reusing flowers from church arrangements, this is more sustainable giving us more use out of your blooms and helps with budget.

Extra Information: Delivery, setup & Additional charges

Delivery is offered to all weddings for a standard fuel charge per mile, plus time taken to load and unload and set up at the venue. This is all made clear on your initial proposal, there is no hidden costs. If collection is preferred to help save costs etc this can be arranged subject to availability.

Once you are happy with your wedding flower proposal, we ask for 50% as a deposit to hold the date and to cover costs. This deposit is fully refundable if events change (upto one month before the event) and comes off the final invoice which will be sent before the event. There are some basic Ts&Cs to cover the deposit and any vessel breakages etc.

Along with your initial wedding proposal, you will be sent a pdf of flowers we will have in season for your wedding that I have chosen to go with your selected colour palette. This will help you visualise your arrangements. We will also ask for any inspiration photos of the overall look/style you are wanting from your flowers.

Thank you for considering us to provide your wedding flowers!

We have a small team of me (Kate), my mum assisting me grow/cut flowers and help from my partner with admin and delivery!

Pop me an email and I look forward to planning your big day with you.
